side) are not included and will continue

#### Reminders:

- Garbage is to be bagged, tied, and placed in a proper container or receptacle with a lid, preferably with holes drilled in the bottom (to prevent filling with water/snow and to drain other liquids).
- Do not use boxes. They get wet and fall apart.
- No loose garbage. It blows all over the place.
- No recycling materials.
- No burnables. (grass, trees, leaves, wood, etc.)
- No metal, concrete or drywall.
- No carcasses.
- Do not overload bags. The bags must be lifted into the trailer, and also tear if they are too heavy.
- Place bags upright. If upside down and not tied well enough, the bags open and dump garbage everywhere.

\* Clean burning materials, metal, concrete, and regular household waste can all be taken to the dump on Saturdays for no charge.
